After finishing lunch we put the snowshoes in our bags and take the sledges. We are going down the Laaso hill, which will be about one kilometer long. Down we will drive with the all-terrain-vehicle after the guide was telling about the 'rules of driving'. (It is up to driver to remember drive slowly) 3 persons can drive at the same time, the others can for example make a fire and boiling water for coffee and tea while waiting their turn.
